Re: MiVida Reclamation

Dear Tom:

In reference to your letter of April 22, 1983, we took our equipment to the MiVida property to fill in the caved drill hole referred to in your letter. Bill Nielson, Mining Superintendent for Minerals West informed me that we would be trespassing if we filled in the hole as that property belongs to Atlas Corporation.

Also, the shaft that needs fencing also belongs to Atlas. We have not taken any action on these deficiencies. However, we would like to have these hazards eliminated. Would you please let Atlas know these problems need to be taken care of.

I understand a tentative meeting between Energy Fuels, yourself and Minerals West is scheduled for June 28th at the Hillside mine. If so, I'll see you then.

Very truly yours,

MINERALS WEST, INC.
